Mr. Johnson:

Please see the attached letter for request EPA-HQ-2016-007583 that was in response to your June 14, 2016 request for records from June 1, 2010 to January 1, 2013 by individuals using @epa.gov addresses to and from individuals using @nrahq.org email addresses and several phrases. According to the attached letter we did not receive clarification regarding your request, therefore, the request was administratively closed out. Also, it appears that this was a duplicate request of EPA-HQ-2016-007582 in which you received notification on June 22.

Please consider resubmitting your request, include additional descriptive, specific information regarding the subject matter of the records. This would narrow the scope of your request and assist us to identify and locate the records you seek.
